DATA EDGE

Everything your business runs on — tasks, documents, and AI, working together in one connected platform.

PREPARED FOR YOUR TEAM

THE CHALLENGE

Running a business shouldn't feel like this

Most teams lose hours every week to tools that don't talk to each other.

Tasks scattered everywhere

Spreadsheets, chats, and sticky notes — nothing lives in one place.

Documents buried in email

Contracts and files get lost in inboxes when you need them most.

No time for real insight

Too busy chasing updates to see what's actually happening.

THE SOLUTION

Introducing Data Edge

One platform. Everything connected.

Task & Workflow

Kanban boards, automated task routing, and workflows that run themselves.

Document Management

Secure storage, e-signatures, and organized files your team can always find.

AI Assistant

An assistant that understands your tasks and documents — ask it anything.

THE IMPACT

Time is your most valuable resource. We give it back.

10+

HOURS SAVED / WEEK

Reclaimed from manual task-chasing and status updates.

3x

FASTER TASK TURNAROUND

Automated routing gets work to the right person instantly.

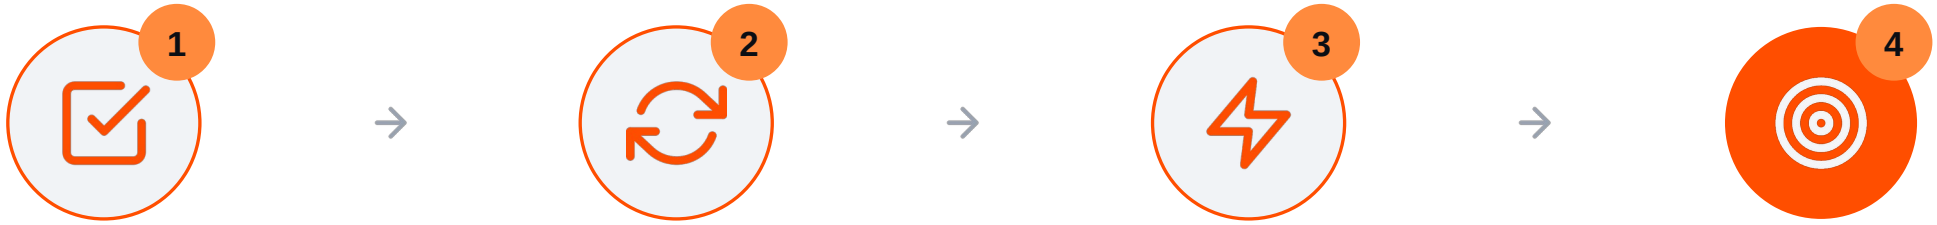

0

MANUAL FOLLOW-UPS NEEDED

Reminders and updates run automatically, every day.

THE EXPERIENCE

How it works — seamlessly, automatically

Task created

By your team, a client, or an automated trigger.

Workflow automates

Routing, reminders, and updates happen on their own.

AI assists

Summarizes progress and flags what needs attention.

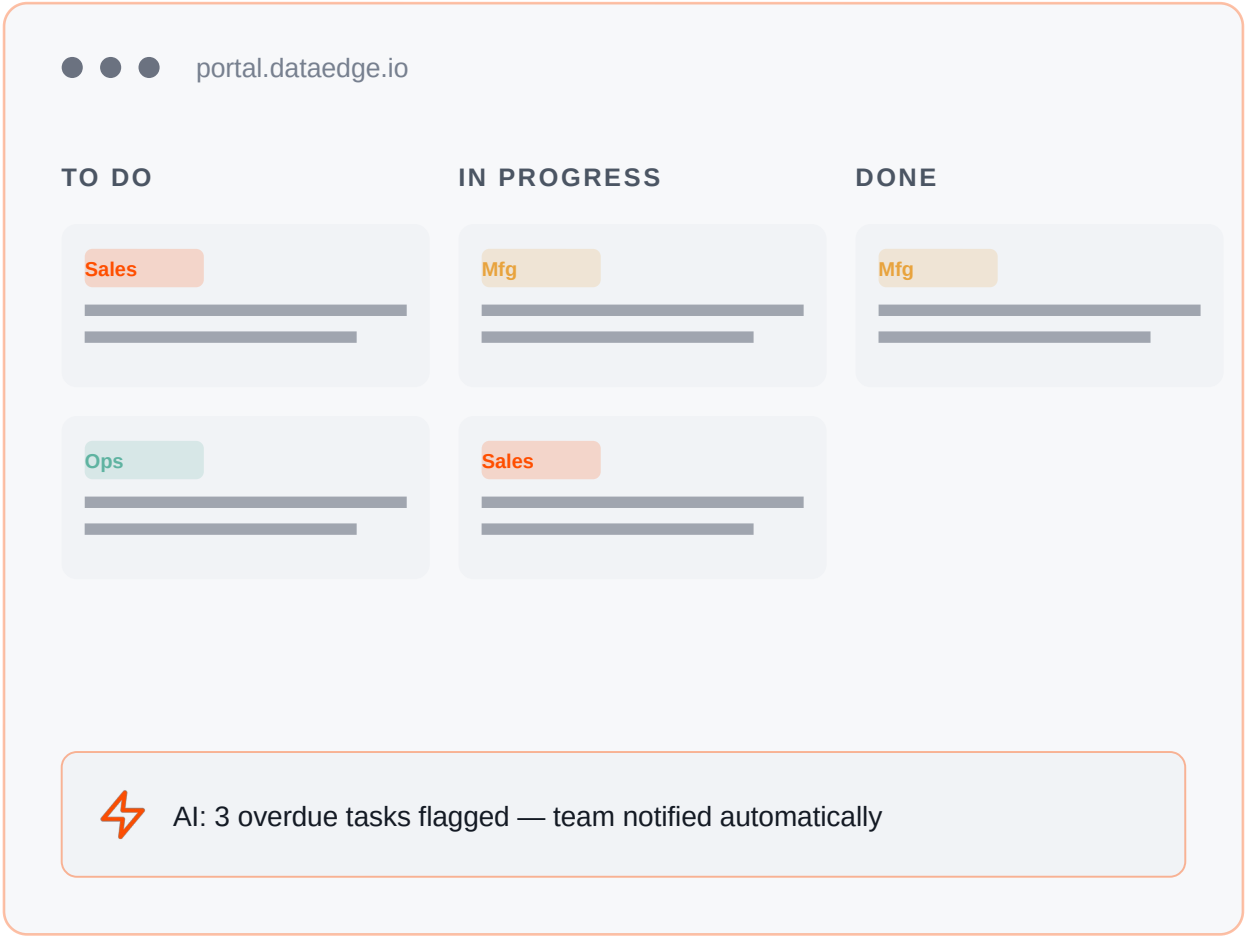

You focus

On decisions and clients — not busywork.

FEATURE SPOTLIGHT

Task & Workflow Management

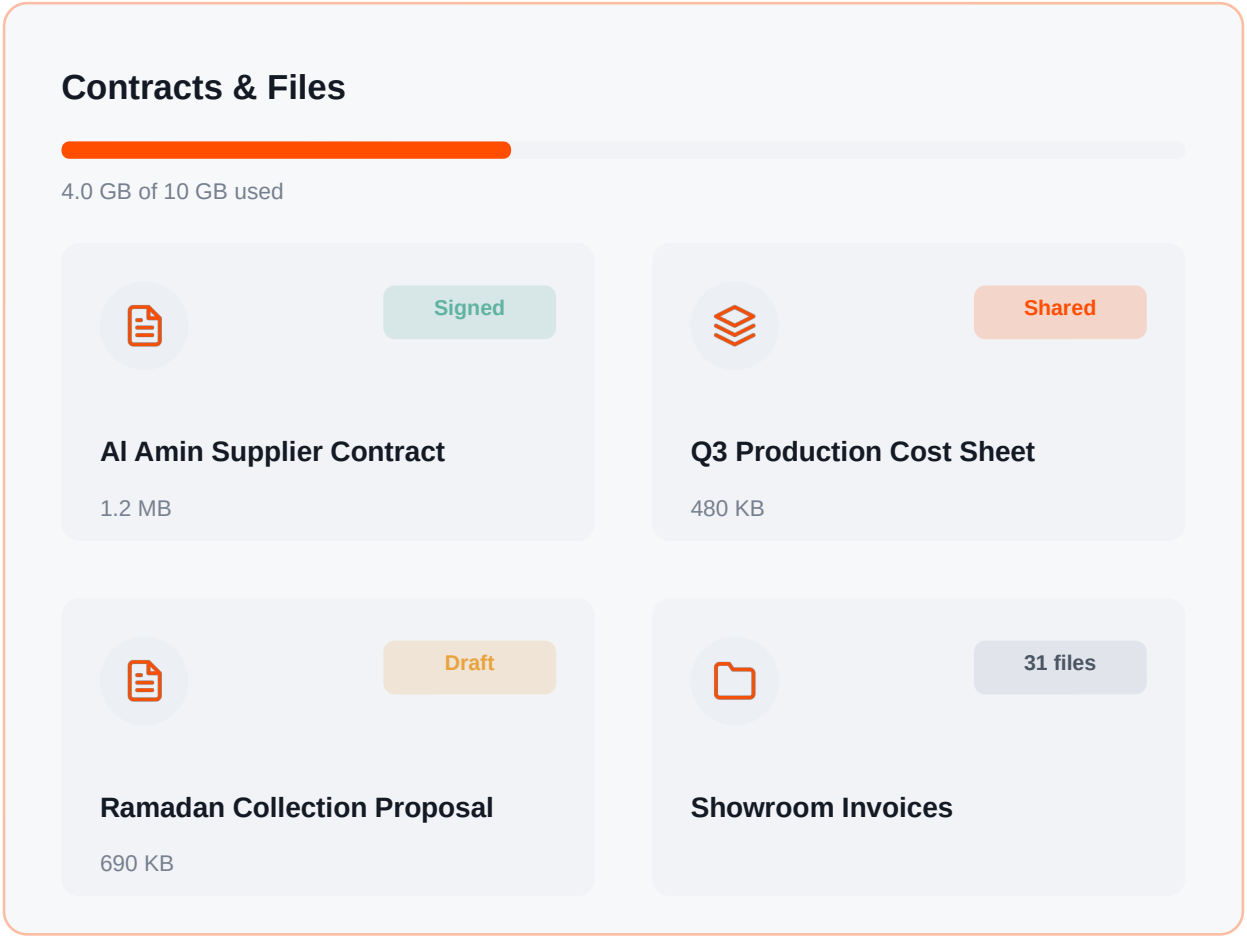

- Visual Kanban boards for every project
- Automated task routing — no manual assigning
- Reminders that chase deadlines, so you don't have to
- Ready-made workflow templates for common processes

FEATURE SPOTLIGHT

Document Management

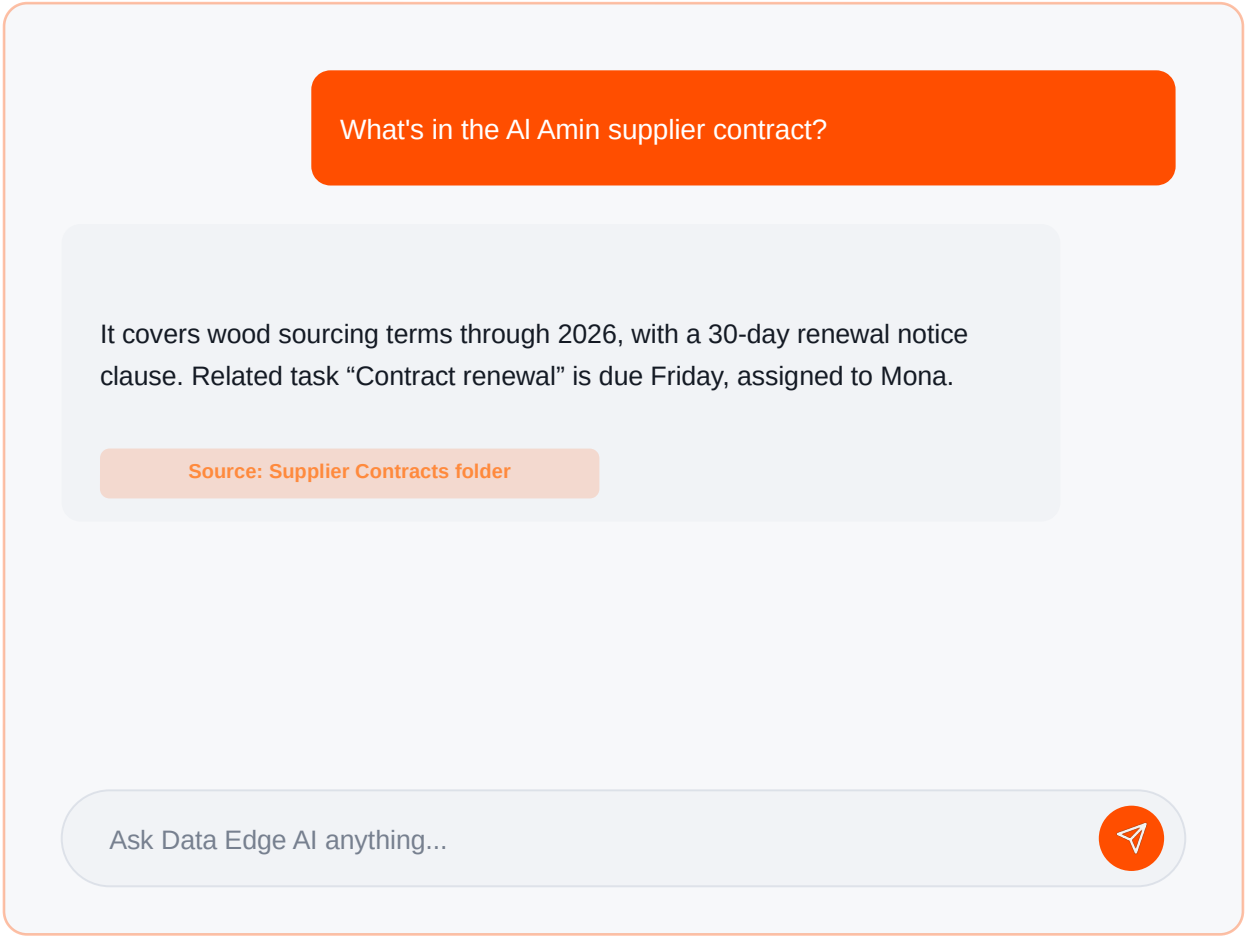

- Secure, organized file storage for every client
- Built-in e-signature for contracts and proposals
- Version history — never lose a previous draft
- Find any file in seconds with smart search

FEATURE SPOTLIGHT

AI Assistant

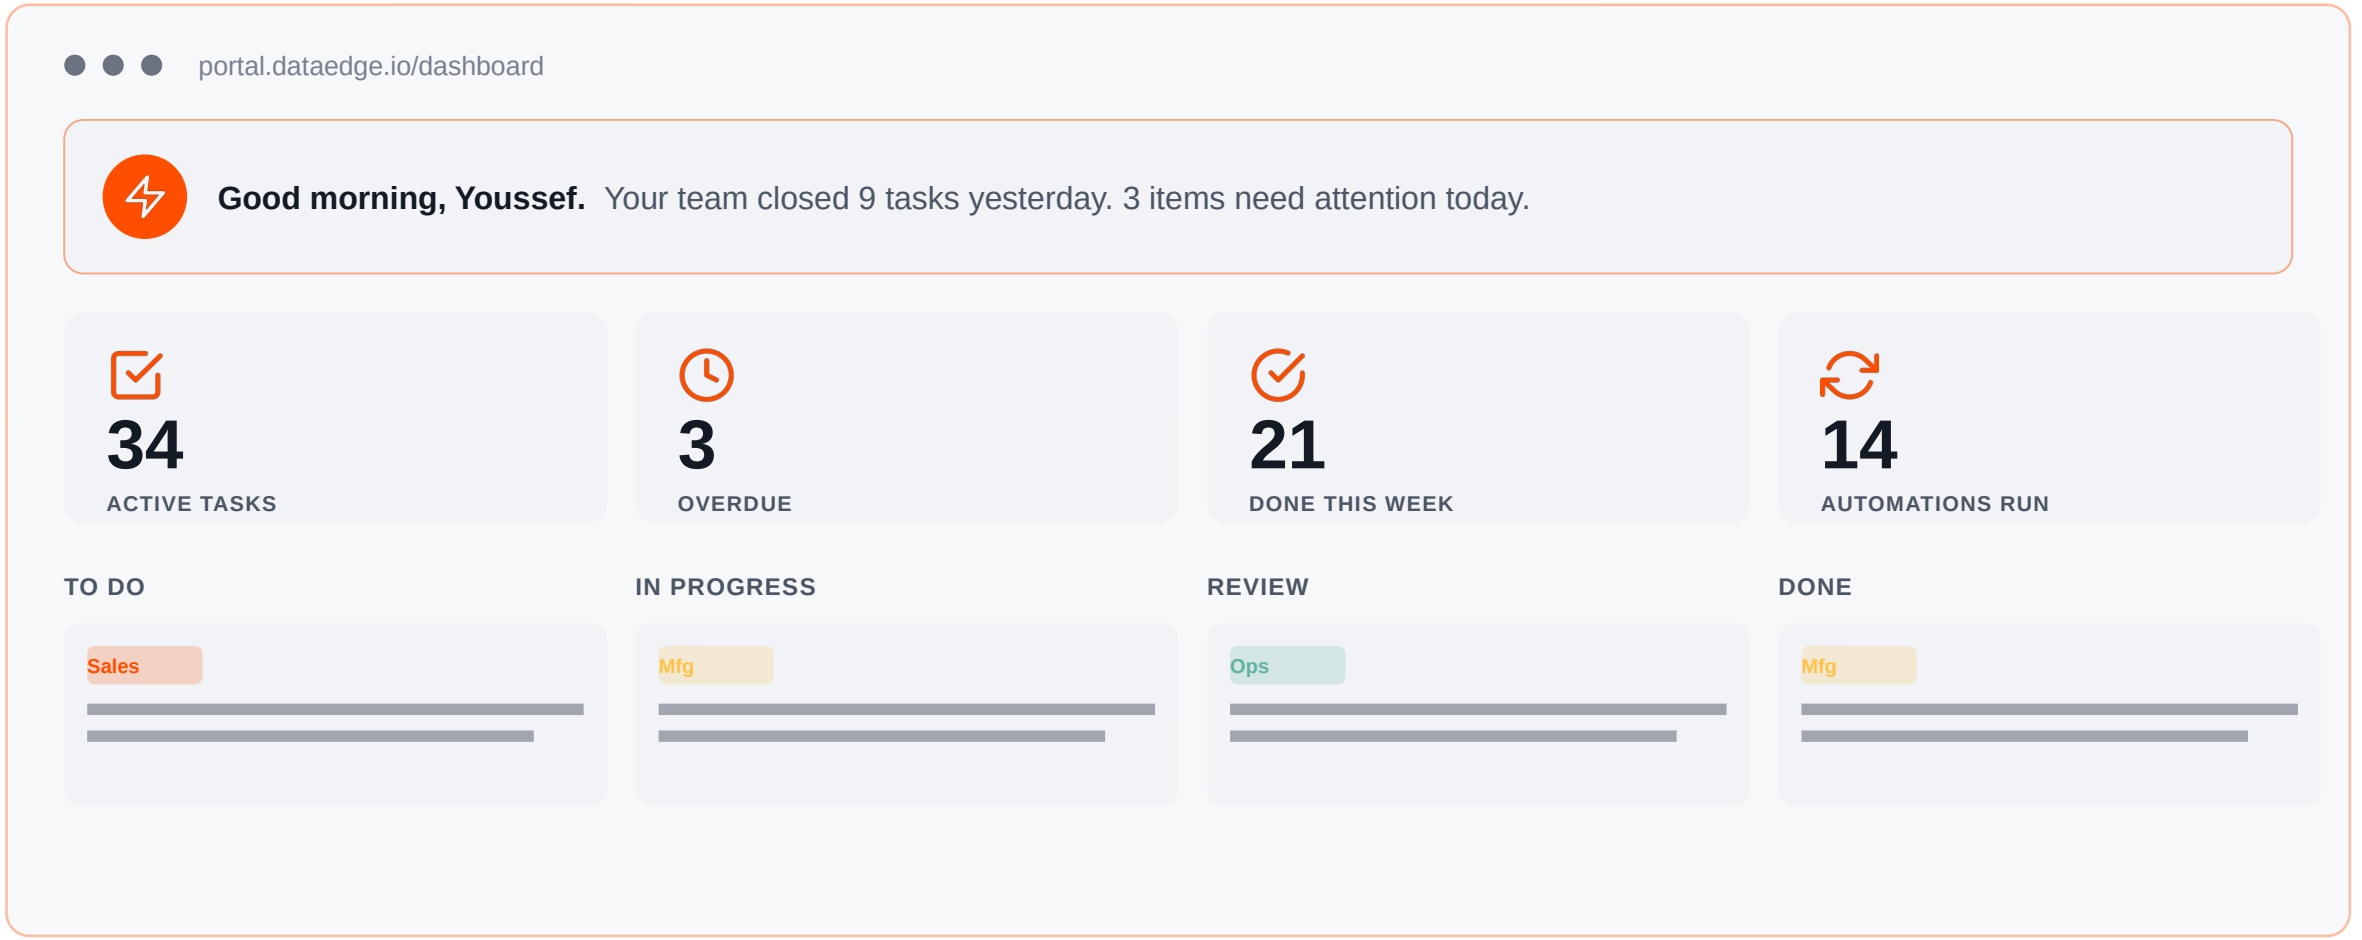

- Ask questions in plain language, get instant answers
- Understands your tasks AND your documents together
- Drafts emails and messages for you in seconds
- Available right inside your branded portal

THE DIFFERENCE

Everything talks to everything

Your tasks, documents, and AI assistant aren't separate apps stitched together — they're one system.

“Ask your AI assistant about a contract — it already knows which tasks depend on it.”

INVESTMENT

Simple, transparent pricing

Choose the plan that fits your team today — upgrade any time as you grow.

Starter

5,000 EGP/mo

- Up to 5 users
- 5 GB storage per client
- Task & workflow automation
- Email support

MOST POPULAR

Pro

10,000 EGP/mo

- Up to 15 users
- 25 GB storage per client
- Everything in Starter, plus AI Assistant
- Priority support

Enterprise

20,000 EGP/mo

- Unlimited users
- 100 GB storage per client
- Everything in Pro, plus custom workflows
- Dedicated account manager

TRUST & SECURITY

Enterprise-grade security, built in

Your data is protected by the same infrastructure and standards trusted by banks and global enterprises.

Global cloud infrastructure

Hosted on Amazon Web Services (AWS), across redundant, geographically distributed data centers.

Encrypted everywhere

TLS 1.2 + AES-256 encryption for data in transit and at rest, on every file and every connection.

PCI DSS compliant

Independently audited by SecurityMetrics. No card numbers are ever stored on our servers.

GDPR-aligned

An active participant in the Data Privacy Framework Program, with a Data Processing Addendum available.

99.9%+ uptime

Redundant systems and automatic failover keep your portal available around the clock.

Continuous backups

Near real-time backups, plus cyber liability insurance for extra peace of mind.

QUESTIONS & ANSWERS

Data & security — answered

Where is our data stored?

On Amazon Web Services' (AWS) global infrastructure, in redundant, geographically distributed data centers — never on local, unsecured servers.

How exactly is our data protected?

Every file and connection is encrypted (TLS 1.2 in transit, AES-256 at rest), with continuous monitoring and automated backups running in the background.

What compliance standards do you follow?

PCI DSS certified (independently audited), an active GDPR Data Privacy Framework participant, with HIPAA Business Associate Agreements available on request.

QUESTIONS & ANSWERS

Getting started — answered

Do we need to install any software?

No — Data Edge runs entirely in your browser, with a free installable app for both iOS and Android.

What happens to our data if we ever cancel?

Your data stays accessible for a period after cancellation, then is permanently and irreversibly deleted for your privacy.

How long does onboarding take?

Most teams are fully set up within a few days, with hands-on setup support included at every plan level.

Ready to move faster?

Let's set up your free walkthrough of Data Edge.
